

Ornament Keeper:
Use this bag to store ornaments,
accessories and more!

What's included:

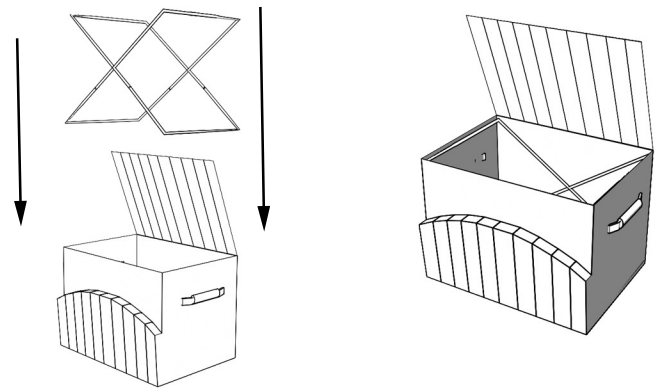

- 1 Ornament Keeper Storage Bag.
- 4 Fabric and wire frame trays
- 28 Cardboard panels (14 Long / 14 Short)
- 2 Support Frames

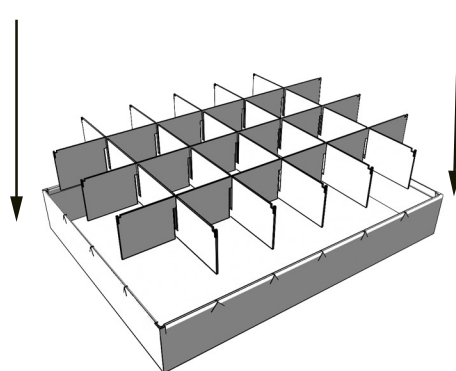

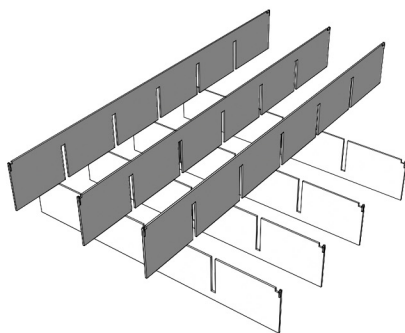

1. Assemble the inner support frame by inserting the male ends into the female coupler. Do this for the second frame as well.

2. Insert the inner support frames into the bag. Secure in place using the velcro tabs sewn into the lining of the bag at the top and bottom of the inside of the bag. It may be helpful to install each frame separately. Make sure they cross each other across the bag as shown here.

3. Assemble the cardboard panels together and insert them into the fabric trays. This is a slightly tight fit, sit the dividers on top of the tray and carefully pull the tray fabric sides and wire liner up and over the cardboard divider sections.
